

ENGINEERING SEMINAR

Thin Asphalt Overlays for Pavement Preservation

Pavement Preservation is a necessary component of good pavement management. The proper techniques applied at the right time can protect existing pavements from deterioration, extend pavement service life, and be an effective use of limited infrastructure funds. The NJAPA is an approved NJPELS Continuing Professional Competency Provider (Provider #24GP00018800) – this seminar will qualify for 2 CPC Credits.

Jim Purcell, Technical Director of the New Jersey Asphalt Pavement Association will present a seminar on how to determine the need for pavement preservation, when to apply the appropriate treatment, and how thin asphalt overlays can be an economical option. This program covers the following topics.

When: Wednesday, February 8, 2017

7:30 – 8:00 a.m. – Continental Breakfast & Program Registration

8:00 a.m. – 10:00 am – Presentation and Discussion
