New Jersey Asphalt Pavement Association

Vision Statement...

The New Jersey Asphalt Pavement Association is widely recognized as the voice of New Jersey's Asphalt Pavement Industry. Our membership includes asphalt mixture producers, major lay-down contractors, asphalt binder suppliers and the leading asphalt industry equipment, material and service providers.

NJAPA plays a leading role in securing a robust, long term highway capital program while ensuring that asphalt pavement remains the pavement of choice.

Asphalt Pavement industry members are viewed as responsible corporate citizens providing the most cost effective and sustainable transportation material. Our goal is to ensure asphalt pavements are high quality, smooth, safe, quiet, environmentally friendly and provide the lowest lifecycle and user delay costs.

Road Science, A Division of ArrMaz Custom Chemicals, is the leading technology company for the road paving industry. Our innovative offerings span the entire value chain; from formulating ad producing key chemical components for asphalt and asphalt emulsions, such as liquid anti-strips, emulsifiers, and Warm Mix additives, to providing field engineering and plant production support. Within New Jersey, Road Science provides Polymer Modified Asphalt Binders that meet the NJDOT's specifications for BDWSC, BRIC and BRBC HMA mixtures. Road Science's engineered solutions for CIR and FDR asphalt recycling as well as micro-surfacing and warm mix technology, ensures our customers are getting the most comprehensive solution set available today.

Chris Simmons – New Jersey Territory Sales Representative

FORTA-FI is a high tensile strength synthetic fiber blend formulated to reinforce asphalt mixes in both new construction or rehab projects. The mix of aramid and polyolefin fibers is designed to enhance your current mix design. Aramid fibers will not melt in the asphalt mix and are known for their strength and durability in both high and low temperatures.

Lennie Loesch - Owner

Stansteel helps Hotmix Asphalt Producers make their asphalt plant run better by re-engineering and renewal of weak or out-of-date components. By integrating newer technology into a 10-, 20- or 40-year old asphalt plant, it can be upgraded to produce the same quality Hotmix as a brand new plant. Stansteel Used Equipment helps select valuable components or plants to upgrade, restore and update asphalt plant capabilities. For decades, Hotmix Parts & Service has been providing replacement parts for every brand and type of hotmix asphalt plant produced in North America. Hotmix Parts & Service Technicians are proud that over 90% of our business comes from repeat customers including frequent emergency parts and service support. You've heard for years "Anything for an Asphalt Plant - New - Used - Parts - Components - Field Service" . . . FROM CONTROLS AND COMPONENTS TO COMPLETE HOTMIX ASPHALT PLANTS!
