

NJ ASPHALT PAVEMENT ASSOCIATION AUGUST 2024 MEMBER UPDATE

NJAPA Plans Congressional Meetings

NJAPA will be participating in the NAPA Congressional Office Visit program on September 25 and September 26. This is a joint program with NSSGA and NRMCA.

This is a critically important opportunity to meet directly with Members of Congress and Senior Congressional staff and discuss important policy issues which impact our industry and your company. NJAPA and NAPA will make all appointments and NJAPA Staff will guide the group through the Capital Complex.

All NJAPA members are encouraged to send a company representative to this event.

You can register for the program here:

NJDOT Releases Baseline Document Change for Asphalt Mix Production Stops

The specifications have been revised to state that production and shipping will immediately stop when 2 consecutive acceptance or quality control samples are outside of the specified gradation or volumetric requirements. A copy of the Baseline Document Change is included [here](#).

Women of Asphalt Plan Facility Tour at Tilcon NY

Please join the Women of Asphalt, NJ Branch on October 10, 2024 for an educational tour of the Tilcon NY Mount Hope Quarry Operations and Asphalt Production facility. Attendees will meet at Tilcon Headquarters in Parsippany, NJ for a brief meeting and overview of the facility and the operations. We will then board buses to tour the asphalt plant and return to the Tilcon office for a networking lunch.

Registration is free, however, you must register to attend. For more details and to registration click [here](#).

NJAPA Partners with Asphalt Pavement Alliance to Offer Principles of Quality Asphalt Pavements Class

Please join us at Forsgate Country Club on November 1, 2024 for a full day educational program, “Principles of Quality Asphalt Pavement”. The class will be presented by Dr. Buzz Powell, P.E., Technical Director for the Asphalt Pavement Alliance and former longtime staff member at the National Center for Asphalt Technology.

Topics will include:

- Asphalt Mix Design and Testing
- Material Storage, Handling and Transportation
- Asphalt Binders and Aggregates
- Use of Recycled Materials
- Paving Practices
- Quality Assurance and Quality Control
- And More

This is an excellent program for asphalt producers, paving contractors, inspectors, engineers and project owners. Attendees will learn best practices for asphalt design, production and placement. The program is also approved for continuing education credits for New Jersey Professional Engineers.

Please [click here](#) to register. If you have any questions, please contact the NJAPA office at 609-838-1867 or email Stacey Lindenmuth at staceyl@njapa.com

Nuclear Gauge Safety Training Plus Hazmat Training Course

This course is for nuclear moisture density gauge operators. This course provides the certification required to operate and transport nuclear moisture density gauges. A quiz will be given at the end and a certificate issued with a passing score. The program will be presented by Robyn Myers, Radiation Safety Officer of Troxler Electronic Laboratories, Inc.

Topics covered include:

- Radiation safety fundamentals and principles
- Regulatory requirements
- Portable gauge theory, design and operation
- Gauge maintenance and troubleshooting
- Operating, emergency, maintenance and transportation procedures
- Leak testing
- Storing, packaging and transporting gauges

The class will be held on Wednesday, November 13, 2024 at Forsgate Country Club, Jamesburg, NJ from 8:00am to 3:30pm.

Please [click here](#) to register and for more information. If you have any questions, contact the NJAPA office at (609) 838-1867 or email Stacey Lindenmuth at staceyl@njapa.com
